

Please do NOT prevent XM satellite radio from broadcasting instant traffic and weather reports. I benefit from listening to both reports daily and also listen to satellite radio for its variety and quality that I cannot find any place else. I am paying for this service and it should NOT be up to the National Association of Broadcasters to dictate what I am permitted to hear. Respectfully I urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I want, demand and deserve!!!
